# EPA National Conference Call

15 November 2007

# Thermo Scientific FEM Test Status

- Four Class III Candidate Methods
  - TEOM 1405-DF Ambient Particulate Monitor
  - TEOM Series 1400ab with 8500 FDMS
  - Model 5030 SHARP Monitor
  - FH62C14 Continuous Particulate Monitor
  
- Completed 3 of 5 Sampling Periods
  - Fourth Sampling Period Underway
  - Final Sample Period Scheduled for Completion by January

# TEOM 1405-DF Dichotomous Particulate Monitor

## Comparison of TEOM 1405-DF Dichotomous Ambient Particulate Monitor vs. FRM

Combined Winter and Summer Data (Raw Results)

# Model 5030 SHARP Monitor

## Comparison of SHARP vs. FRM Combined Winter and Summer Results
